THE APPEAL FOR '78

The APPEAL needs no formal statement of principles, nor elaborate recital of what it will do or expect to do in the year 1878. It can offer no stronger guarantee for its future than is afforded by its conduct during the thirty-seven years of its existence. It will favor earnestly and faithfully for the advancement of the Democratic party and for the good of the south, which it believes to be one and inseparable. It will, as heretofore, present a full and complete account, each lay, of the current events transpiring throughout the globe, and, besides special telegrams and general correspondence, will contain all the news of the world, furnished by the Associated Press, whose extensive cilities for obtaining and transmitting incormation are of the most thorough and exhaustive character. The very best and most erfect reviews of financial and commercial matters will also be daily given, and comprehensive reports of the various markets of the world will always be furnished. The circulation of the APPEAL has steadily advance I with each successive year, until it is now equal to that of any paper in the south. The daily and weekly are sent into hundreds of families, in nearly every city, town, village and hamlet in West Tennessee, Mississippi, North Alabama and Arkansas. It finds its way into every community whose business trade is tributary to Memphis. Notwithstanding this, its proprietors are determined to extend its circulation, and for that purpose have made extensive arrangements throughout the south. The APPEAL will continue to be a first-class newspaper, and it will have the courage to boldly declare and constantly maintain the principles of its political faith, which are emphatically with the Democratic party, which has liberated the south from military rule and Radical corruption. GENERAL TRADE.

The weather yesterday showed no improvement on that of the day before; mud was more abundant, and perhaps was the cause of the dullness that existed in the market. The Ohio river steamer arrived with a fair cargo of grain and vegetables, of which the potatoes and cabbages met with a ready sale. From the New York Bulletin, of Wednesday, we learn that buyers are slow to take hold of Brazil coffees, and they are slow and drooping. Raw sugars in moderate stock; late aring. Raw sugars in moderate stock; late ardous, and there is sale for nothing but really rivals of new sugars, and probably considerable damage to the West India crop, and also every reason to expect an increased demand from the interior for the refined article, which, shown by buyers, keeps matters pretty strong. ion and Planters bank sold, bringing 105, harp advance.

In the event the Memphis and Cincinnati packet company add another steamer to their line, which we hear is not improbable, we hereby nominate Colonel J. D. We hope Colonel Moore's characteristic modesty will not prevent his accepting the position should it be tendered him by the officers of the company.

The Memphis and Cincinnati packet company has eclipsed everything, by river or rail, in giving excursion tickets to the Memphis Mardi-Gras festival, good till the first of April. Here's what the Cincinnati Times says about it: "Commodore James S. Round trip tickets, good to return on any steamer until April 1st, will be sold by the Memphis and Ohio river packet com-

Speaking of the St. Louis grain market, the Republican, of Thursday, says: "In the grain market, also, the signs of progress are equally marked. The water route seems at last to have been fairly established, and the promise of the future is so good that an Ohio river line of barges and towboats, known as the Iron-line, have been transferred to the St. Louis and New Orleans grain trade. One towboat and four barges of this line are here and have got their cargoes already, and there are forty more barges in the line which will be added when the trade demands them. Other additions to the lower river tonnage are promised, and there is good reason to believe that the revolution in the grain trade will

that the revolution in the grain trade will hereafter grow apace."
